## EDUCATION

### Georgia State University

Atlanta, Georgia

*Bachelors of Science: Computer Science*

*Expected May 2025*

- GPA: 4.09
- President's List Recipient: Fall 2021, Spring 2022, Fall 2022, Spring 2023, Fall 2023 & Spring 2024
- Relevant Courses: Software Engineering-CTW, Web Programming, Mobile App Development, Data Structures, Operating Systems

## EXPERIENCE

### Software Engineering Intern

May 2024 - August 2024

*Uber Technologies Inc.*

*New York City, NY*

- Engineered a comprehensive internal tool to streamline the autolinking process within the Product Enrichment Framework, bridging the gap between merchant products and Uber canonical products, resulting in a 30% increase in product connectivity.
- Crafted a dynamic and scalable frontend using React and TypeScript to enhance user experience and improve overall system performance.
- Utilized SQL for database design and testing, ensuring data integrity and system efficiency, leading to a 20% reduction in loading times for product information.

### UberSTAR Software Engineering Intern

May 2023 - August 2023

*Uber Technologies Inc.*

*New York City, NY*

- Utilized SQL and the Go programming language to develop customized push notification attributes to reduce shopping cart abandonment for price-sensitive users, improving re-engagement for this key demographic.
- Collaborated cross-functionally with multiple teams at Uber to conceptualize and initiate a dynamic project.
- Designed a user retention experiment, including push notifications and special offers for price-sensitive users.

## PROJECTS

### Spotify Clone | <https://github.com/husainarib/Spotify-Clone>

October 2023

- Developed front-end of responsive web application mimicking core Spotify features including song playback, playlists, and account management using Vue.js framework.

### Netflix Clone | <https://github.com/husainarib/Netflix-Clone>

September 2023

- Built using Vue 3, Pinia, Vite, and Tailwind CSS, this project is a responsive web app that mimics the core browsing functionality of Netflix.

## COMMUNITY & LEADERSHIP

### Association for Computing Machinery

August 2023 - Present

*Member*

*Atlanta, GA*

- Regularly attended ACM meetings, social gatherings, and seminars featuring industry giants like Google, leveraging these opportunities to establish connections with influential figures from prominent tech companies.

### Muslim Student Association

August 2021 - Present

*Member*

*Atlanta, Georgia*

- Actively participated in meetings, social gatherings, galas, and seminars organized by the Muslim Student Association

## TECHNICAL SKILLS

**Languages:** Java, Go, Javascript, Typescript

**Frameworks:** gRPC, React

**Developer Tools:** Git, Jira, Phabricator

**Libraries:** Vue, Tailwind CSS, Pinia

**Applications:** MySQL, Grafana
